LIVING LEADERSHIP

LIVING LEADERSHIP

The CTM recognises the organic and evolving nature of leadership in contexts of challenge and times of change. Engage with us through Living Leadership events that will build capacity, insight and resilience in your leadership.

The Living Leadership program comprises two distinct event types:

Core – providing a foundation for on-going learning, the Living Leadership Core intensives cover DiSC, teams & leadership styles; culture, context and conflict; strategic change: and much more.

Core offerings are usually provided in an intensive format (1x5 days or 2x2 days) for individuals and teams.

Focus – addressing key issues in the life of the church including strategic leadership, inter-cultural leadership, church governance and leadership for inter-related councils. Focus offerings are designed especially for those who are part of Uniting Church congregational or regional leadership teams or councils.
